

Oasis India

"There comes a point where we need to stop just pulling people out of the river. We need to go upstream and find out why they're falling in."
- Desmond Tutu.

our vision

This is what we, in Oasis India, aim to do. We aim to prevent trafficking and other forms of violence against women and children and assist each person to flourish in the context of their community. We do this by establishing **Change Agent groups** who then work to build their communities, ensuring that **everyone is included, has a chance to contribute and reach their full potential**.

For example, one group in Bangalore has taken initiatives to reduce suicide rates. One group in Mumbai seeks to ensure that everyone in their community can identify and report instances of trafficking. Change agents are identified when they are part of one or more of the programmes we develop in each community.
